The improved demand noticed in our list circurcontinued airing the past month. Some of our ager operators appeard to the market and took larger operators app-ard to the market and took several hundred hogsheads of western stripe. Buying, however, was by no means general the trade as a body adhering to their expressed intention of awaring the result of this year's planting before purch sing freely for stock.

The demand was again confined a most entirely to the better qualifies of strips, for which our fall quotations were paid.

Rumors of damage to the plant-beds by frost were circulated carry in the month; but, lacking confirmation, they had very little effect on the action of buyers or sellers.

Leaf is in such small compass that transactions were of incessive limited. Some fact, ry-dried of good color and high reputation was placed at our ourside figure. Nothing was done in Me sourt of which very few lots remain unsold to this market, onto was in request—especially leafy brown for wrappers for some curpe—at 6:407/307341. Some were also taken for transactions.

Virginal iest of all kin is is very scarce. In strips we do not know of any transaction. Virginia leaf of all kin is is very scarce. In strips we do not know of any transaction.

The deliveries of stemmend for the first four mont sof the year were 1.548 hogsheads western and 302 hogsheads Virginia, including 200 shipped to 2 hogsheads Virginia, including 200 shipped to 2 hogsheads Virginia, including 200 shipped to 2 hosting four little falling off compared with former seasons. Still, with a stock in London and Liverpool equal to two years' constantion, we cannot wonder at the hestation shown by some portion of the trace in paving prices which are beed to future rather than any present scarcity.
